

Contract Manufacturing Services

Consolidated Operations

For maximum control, all products are manufactured under a single roof in our San Marcos facility

Kanban

To minimize your cost and balance your production requirements we offer Kanban services

Manufacturability Design Review

In order to optimize the manufacturability of your products we offer complimentary manufacturability design reviews

Change Control

We use a proprietary ECO program to effectively document and implement your engineering change request

Paperless Quality Assurance System

Our ISO 9001:2000 quality system is primarily paperless so as to significantly improve our efficiency and its effectiveness

Customer Communication

Customer correspondences are managed in an internally shared proprietary database to assure our full understanding of your requirements

Spectrum Assembly, Inc.

contract manufacturing redefined
